

Petition against schedule change and 20 minute lunch period

The students of Randolph High School are against the schedule change being proposed by the Board of Education. The student do not believe coming in later and leaving school later would help the sleep patterns of high schooler and the shortened lunch period would not to be sufficient time to eat lunch.

After school Activities such as clubs, sports, and extra-help will be much later in the afternoon. students need time to unwind after three hours of classes in the morning and before three hours of classes in the afternoon. In the business world employees are guaranteed at least a 30 minute lunch period plus a 15 minute break after working 6 hours. The students of RHS are here for almost 7 hours a day and deserve the 50 minute lunch period.

Petition against schedule change and 20 minute lunch period

The students of Randolph High School are against the schedule change being proposed by the Board of Education. The student do not believe coming in later and leaving school later would help the sleep patterns of high schooler and the shortened lunch period would not to be sufficient time to eat lunch.

After school Activities such as clubs, sports, and extra-help will be much later in the afternoon. Students need time to unwind after three hours of classes in the morning and before three hours of classes in the afternoon. In the business world employees are guaranteed at least a 30 minute lunch period plus a 15 minute break after working 6 hours. The students of RHS are here for almost 7 hours a day and deserve the 50 minute lunch period.
